- Teamwork
- Advanced English Proficiency

INTERESTS

I have strong passion for software development and continuously exploring emerging technologies to stay updated with industry trends. UI/UX design fascinates me as it combines creativity with functionality to create user-friendly experiences. In my free time, I enjoy doing video editing and studying photography world, which allows me to express my creative side. I also maintain an active lifestyle through sports and fitness activities, believing that physical wellness contributes to better productivity and mental clarity.
